About VersaRink Pro™

The **VersaRink Pro™** is a very flexible dasher board system which can be configured for a wide range of uses. Whether you are looking for typical hockey rink design or to create a circuit in your city park, the **VersaRink Pro™** modules come in a wide range of curves and heights to fit your space. The **VersaRink Pro™** boards are quick and easy to install and dismantle to relocate or to store away.

The **VersaRink Pro™** advantages:

- Installs and dismantles quickly with only two people
- Quick and easy to re-locate and/or store
- Various heights available: 8", 12", 16" and 24"
- Eight foot length modular sections in various curves
- High grade construction with high quality UV stabilized Puckboards
- Compact storage with optional custom pallets
- Stainless steel components and 3/8" aluminum frame
- Easily installs on wide variety of surfaces and stays put
- Professional high quality finish
- Can be used 12 months per year
